

URBAN FARM INITIATIVE

GIFSEP Urban Farming Initiative is equipping communities and households in urban and peri urban areas to grow food in their compound thereby contributing to Nigeria’s food availability efforts. Our target is to empower about **500 women** to grow food in open spaces.

Our objective is to reduce poverty, increase food production and curtail inequality.

OUR WORK

The work we do

01

Train
We train women, youth and Persons with Disabilities with essential skills on sack farming and Climate Smart Agriculture

02

Support
We support communities and women led households with seedlings and tools to grow food in open spaces and within their compound

03

Monitor
We monitor the progress of the urban farms

04

Inspire
We Inspire communities to take responsibility for the food they eat by growing it themselves.

IMPACT OF OUR URBAN FARMING INITIATIVE

Trained more than about **400** women on sack farming and climate Smart Agriculture, across Nasarawa, Adamawa, Benue State and FCT

400

women farmers
Trained

Established **3** Female farmers cooperative groups in Nasarawa and Adamawa

3

Women farmers
